NEW Slide-Out Printer Shelf for PC Series

This 18" x 20" slide-out shelf can easily support your high-volume label printer or other equipment up to 60 lbs. in weight.

Now, labels can be changed in seconds.

In-Stock Now, Part # B131
Simply mounts to your existing cart shelf.

Improve Inventory Management

Performing inventory management and label printing right as the product is handled results in significant productivity benefits. In receiving departments, inbound product can be received in, inspected, labeled and rerouted all on the same picking cart. This eliminates the product being handled multiple times and unnecessary foot steps.

Both the 30" and 48" PC Series offer the following features:

- **Mobile:** 6" locking swivel casters and compact 26" width
- **Powered:** Up to 300 AH battery configuration
- **Adjustable:** Shelves can be easily positioned to suit operator's height/needs
- **Heavy Duty:** Load capacity of 500 lbs.
- **Modular:** Vast range of fully adjustable accessories that can be added in seconds including keyboard tray, LCD post, scanner holder, and more

Check out our NEW 360 Degree Tour of the PC Series Mobile Powered Workstation at:

Meet Liz Sanger, Inside Sales Coordinator

We're pleased to introduce the latest addition to the Newcastle Systems Team - Liz Sanger.

Hopefully, many of you have already had the pleasure to work with Liz. She joined us in October of 2009, and is primarily responsible for managing the inside sales / support team.

According to Liz, "Over the last 15 years, I've pursued a sales career because I could identify with the general enthusiasm and spirit of sales teams. I realized Newcastle Systems would be a perfect fit for me - the family atmosphere and passion that other employees bring to the office every day is truly inspiring. I feel lucky to have found Newcastle Systems and have sincerely enjoyed meeting our sales partners and customers."

Contact Liz directly for any sales/customer support related items.
