

**Ideal for Applications in:**

- > **Warehouse/DC**  
Receiving, Cross Docking
- > **Manufacturing**  
Inventory, Shipping
- > **Retail Floor**  
Mark-downs, Shelf bins

## > MOBILE HIGH-VOLUME LABEL PRINTING STATION

# MOBILE HIGH-VOLUME LABEL PRINTING STATION

**TOSHIBA**  
Leading Innovation >>>

Converting a stationary high-volume label printer to a mobile one is the easiest, most economical way to increase productivity of your current workers and infrastructure.

**This Mobile Printing Station is ideal for applications that require:**

- Printing large volumes of labels throughout the day
- Both a printer and tablet/laptop
- A full computer screen

## BENEFITS OF A MOBILE PRINTING STATION:

### Process Improvement

- Process & print at point of need (i.e. receiving, cross-docking, store or DC aisles)
- Eliminate footsteps and centralize label pick-ups

### Flexibility

- Holds and powers laptops, tablets, scanners, mobile computers, printers, etc. for 8-12+ hours at a time, while providing storage for extra labels/ribbons
- Enables continual use of large screen displays and high speed industrial label printers anywhere in your facility

### Cost Reduction

- Wireless devices eliminate Ethernet infrastructure in large warehouse/DC
- Eliminates costly footsteps, inefficiencies and delays
- Improves accuracy by reducing mislabeling errors on shipping packages, pallets or inventory

## CREATE YOUR OWN MOBILE WORKSTATION

**A popular configuration consists of:**

- 1 Rugged tablet or iPad
- 2 Toshiba B-EX4T1 or B-EX4T2
- 3 Newcastle Systems Mobile Powered Workstation

### Newcastle Systems, Inc.

15B Sylvan St.  
Middleton, MA 01949  
Tel: 781/935-3450 • [www.newcastlesys.com](http://www.newcastlesys.com)

Newcastle Systems is committed to providing innovative solutions that help make Auto-ID technology and other hardware truly mobile and information more readily available across an entire enterprise.

Loss of productivity and inefficiencies such as wasted steps to the printer, inaccurate inventory counts, improper labeling, time delays, manual processing and incorrect shipments are just some of the challenges that are alleviated with a mobile powered workstation.
